REMARKS:

Attached for your perusal are the drafts of two Memoranda to Holders: one relating to the extant NIE on Vietnam, the other to the extant SNIE on Cambodia. Neither has yet been coordinated by the representatives.

I thought it might be wise to let you glance at these documents at this stage (i.e., before the representatives). This way, if you have any strong reactions, they can be raised and discussed - with or without attribution to you - during the coordination session. If you - or I - weigh in after these memoranda have received working level coordination, true believers might see the bogymen of "command interference" because of our past responsibilities and known strong personal interest in the subjects treated in these papers.
